Professional Society Formed

On June 13, 1962 a new professional society was formed. To be called the Association for Machine Translation and Computational Linguistics, the new society will encourage high professional standards by sponsoring meetings, publication and other exchange of information. It will provide a means of doing together what individuals cannot do alone. The officers for the first year are Victor H. Yngve, President;

David G. Hays, Vice-President; Harry H. Josselson, Secretary-Treasurer. Mrs. Ida Rhodes, Paul Garvin and Winfred P. Lehmann are members of the Executive Council. Richard See, Anthony G. Oettinger, and Sydney M. Lamb are members of the Nominating Committee. The association is not a national organization, but welcomes members from any country. For membership information, write the Secretary-Treasurer.
